MISCELLANEOUS.

DEPARTMENT OF AGRICULTURE, MYSORE.

Notice.

It does not seem to be generally known that, under orders of Government, an Implement Depot is maintained by the Agricultural Department and its services do not seem to be utilised to the extent they might be. The ordinary agriculturist does not always know what implement to get, where to go and what price to pay for it. The depot is intended to save the purchaser all this trouble. It advises him with regard to the choice of an implement and sells it to him for a fair price. If it is not immediately available, it procures it for him from the manufacturers. The department is in addition always ready to give instruction in the use of implements.

It has happened sometimes that a prospective purchaser has come to buy a large sugar cane mill for example, a few days before he expects to start milling operations and has gone away disappointed as the depot had none in stock at the time. As obviously, it is not possible to stock implements in any quantity except ploughs and one or two other ordinary things for which a steady demand is known to exist, reasonable time should always be allowed. It is therefore requested that persons who desire to go in for improved agricultural implements other than ploughs and shares, will place their orders at least three months before they wish to use them. Orders may be sent either direct to the Department of Agriculture or through the Amildars of taluks.

OFFICE OF THE REGISTRAR OF CO-OPERATIVE SOCIETIES IN MYSORE.

No. 281—*C. S.* 145, *dated* 17*th August* 1912.

AUDIT ORDER.

The accounts of the Bangalore Central Co-operative Bank, Limited, were duly audited for the year 1911-12, by Mr. R. Ranga Rao, Assistant to the Registrar of Co-operative Societies, and the statements appended contain the results.

2. The Registrar is glad to note that the Bank enjoys the confidence of the public and has made remarkable progress during the year 1911-12. The membership has more than doubled itself. Out of the authorised number of 200 shares, 182 shares have been taken up, the collected share capital amounting to Rs. 26,500 against Rs. 14,010 of last year.

3. A sum aggregating to Rs. 57,095-4-0 was received as deposits against Rs. 18,650 in 1910-11. The amount of loans granted during the year was Rs. 56,500 against Rs. 33,105. Out of this amount, a sum of Rs. 40,700 was lent to Co-operative Societies and the remainder to individual members of the Bank. The recoveries in the year were Rs. 16,254 against Rs. 1,500 in the year previous.

4. During the year the Government were pleased to sanction a sum of Rs. 35,000 being placed at the credit of the Bank for five years to meet sudden calls from depositors or large demands from societies. But the funds at the disposal of the Bank were quite adequate for its purposes and there has been no necessity for utilizing any part of this sum this year. The concession secures to the Bank immense public confidence by providing it with a ready resource against any period of difficulty that may arise.

5. A useful and forward step taken by the Bank during the year was to adopt a provision admitting Co-operative Societies to membership. This cannot but have an important effect on the future working of the Bank. With a larger number of Co-operative Societies among its members, the Bank will approximate more nearly to the idea of a Central Bank.

6. The Bank not only finances Co-operative Societies in the State, but it also offers them a safe and profitable investment for their reserve and other surplus funds. A sum of Rs. 12,700 has in this way been deposited with the Central Bank. The Registrar has separately taken action with a view to induce all Co-operative Societies, except those in the Mysore District, to deposit their reserve with the Bangalore Central Co-operative Bank. For the societies in the Mysore District, the Mysore District Central Co-operative Bank serves a similar purpose.

7. The transactions of the Bank for the year have resulted in a net profit of Rs. 2,271-3-4 against Rs. 806-4-11 in the year 1910-11. It is gratifying to note that this satisfactory result is due entirely to the energy and ability with which the affairs of the Bank have been conducted.

M. A. NARAYAN IYENGAR,
Officiating Registrar.

THE BANGALORE CENTRAL CO-OPERATIVE BANK, LIMITED.

MISCELLANEOUS.

DEPARTMENT OF AGRICULTURE, MYSORE.

Notice.

It does not seem to be generally known that, under orders of Government, an Implement Depot is maintained by the Agricultural Department and its services do not seem to be utilised to the extent they might be. The ordinary agriculturist does not always know what implement to get, where to go and what price to pay for it. The depot is intended to save the purchaser all this trouble. It advises him with regard to the choice of an implement and sells it to him for a fair price. If it is not immediately available, it procures it for him from the manufacturers. The department is in addition always ready to give instruction in the use of implements.

It has happened sometimes that a prospective purchaser has come to buy a large sugar cane mill for example, a few days before he expects to start milling operations and has gone away disappointed as the depot had none in stock at the time. As obviously, it is not possible to stock implements in any quantity except ploughs and one or two other ordinary things for which a steady demand is known to exist, reasonable time should always be allowed. It is therefore requested that persons who desire to go in for improved agricultural implements other than ploughs and shares, will place their orders at least three months before they wish to use them. Orders may be sent either direct to the Department of Agriculture or through the Amildars of taluks.

Ag. Officer in charge.

1. General and Revenue Secretary's letter No. 1212—Ml. 368-11, dated the 6th August 1912, forwarding petitions received from the proprietors of public conveyances in the City, complaining against the increase in the tax that they have to pay to the Municipality from the 1st July 1912, and enquiring what remedy the Municipal Council would propose to prevent the disparity of the present rates in the City as compared with those prevailing in the Civil and Military Station Municipality.

Resolved that on a further consideration, to be consistent with the rates prevailing in the Civil and Military Station, all hackney carriages may be exempted from the Animal and Vehicle taxes, levying only the License fees according to the rates prevailing in the Civil and Military Station.

2. Draft bye-laws relating to the supply of information by the public in the case of dangerous diseases.

Resolution.—The Council is of opinion that, in view of a Special Health Department with an elaborate staff of officers having been maintained at great cost for purpose of finding out and checking the spread of dangerous diseases, there seems to be no necessity for the introduction of this bye-law for the present.

3. Draft amendment to Schedule A appended to the rules sanctioned in Government Proceedings No. 4102-0—Ml. 555-07-4, dated the 28th November 1911, to provide for the levy of a water rate on buildings used as mandies or shops in the City at one per cent on the rental value, with the objections received in the matter.

Resolution—The draft amendment to Schedule A is approved.

4. Report of the Sub-Committee appointed by the Municipal Council in the matter of the stoppage of the levy of registration and sur-charge fees on arrack shops in the City.

OFFICE OF THE COMPILER, *MYSORE GAZETTE.*

NOTICE.

1. The *Mysore Gazette* is published at Bangalore every Thursday. Matter for publication in the Gazette is often sent late to the Press. This involves considerable inconvenience to the Press and expense to Government. All matter intended for publication in Parts II, III and IV should therefore reach this office not later than Tuesday evening, and that for Part I not later than the forenoon of Wednesday, for the following Thursday's issue of the Gazette.

2. Spare copies of notifications, etc., are often asked for long after their publication, when the matter has been broken up, necessitating its resetting and thereby causing inconvenience to the Press and waste of money. When spare copies are wanted, a note to that effect, stating the number of copies, should be made at foot of such manuscript.

3. If no instructions accompany any matter, it will be published only once.

4. Applications for the supply of the Gazette on *Public Service* should be made to the Secretary to the Government of Mysore, General and Revenue Departments.

5. Under Government Proceedings No. G. 622-32—G. M. 74-10-36, dated 27th July 1911, and Government Proceedings No. G. 4914-23—G. 7. All subscriptions and advertisement charges are payable *in advance*. When postage labels are sent in payment of subscription, etc., one anna extra per rupee should be added.

8. As Government Treasuries in Mysore are authorized to receive and credit Gazette subscriptions as well as publication charges remitted by Courts or private parties, all such moneys should be sent to Treasuries and only Treasury receipts forwarded to this office. No money orders or cash will be received by the undersigned except from parties outside the Province.

9. Much inconvenience is caused to this office by subscribers omitting to give their full and correct addresses and writing illegibly on the money order coupons.

10. Communications on post-cards or on paper less than half a sheet of foolscap, will not receive attention; and no communication should be sent on Government Service by private parties.

11. An efficient system of check and counter check is maintained over the despatch of Gazette copies forwarded through post. Duplicates cannot be supplied in any case of non-delivery.

EDUCATION DEPARTMENT.

Notification D. No. 6, dated 16th September 1912.

The following Subsidiary Rules framed by the Board for the award of Secondary School Leaving Certificates under Rule IX of Government Notification No. 1375-6—Edn. 432-11-7, dated 12th August 1912, are published for general information :—

DATE AND NATURE OF PUBLIC EXAMINATION.

The first Public Examination under the Scheme will be held on the last Monday in March, every year unless it be a holiday authorised by Government, when the examination will begin on the next working day.

There shall be only one paper in English as in other subjects, English composition bearing on the text-books and non-detailed study books done at school generally. General subjects for essays also may be set.

The papers shall ordinarily afford a wide choice of questions.

THE SCHOOL YEAR.

The school year commences on the reopening of the schools after the summer vacation, and the first term will close with the commencement of the Dasara holidays. The second term will begin with the reopening of the school after the Dasara and close at the beginning of the summer vacation.

PRESENTATION FOR THE PUBLIC EXAMINATION.

A list of the pupils to be presented at the public examination must be forwarded by the headmaster of the school from which they are presented to the Secretary to the Board not later than the 20th of December preceding the examination. This list should be accompanied by the treasury receipts for the fees; the fee will not, under any circumstances, be returned. Headmasters are, therefore, requested to take particular care to see that the pupil is eligible for the examination.

To present a pupil for the public examination will be regarded as a declaration on the part of the headmaster that, in his opinion, the pupil, by the end of that school year, will have completed satisfactorily a definite course of study. In deciding whether a pupil is competent to appear, the headmaster should be guided by considerations similar to those on which he decides the annual promotions from one form to another.

The school-leaving certificates of pupils to be presented at the public examination must reach the Secretary to the Board not later than the 1st April immediately succeeding the examination.

AGE LIMIT.

The pupils to be presented in any year must have completed the age of 15 by the 1st of March of that year.

ENTRIES IN REGARD TO NAME, ETC., AND SCHOOLS ATTENDED.

The entry No. 7 of page 2 of the school-leaving certificate should be made only when sending the certificates in, at the end of the course in the sixth form. Entries 1, 2, 3, 4, 5 and 6 should be filled in, as a rule, at the commencement of the fourth form course, but in the case of pupils joining the fifth and sixth forms in 1912 should be filled in as soon as the certificate is provided. Entry No. 6 must include *all* schools attended previously to the making of the entry.

ISSUE AND CARE OF CERTIFICATE FORM.

Certificate forms will be issued through the Inspectors and Inspectresses only and only to managers or headmasters. A treasury receipt for the value of the forms required (5 annas each) must be furnished with the application. Headmasters will issue the forms to their pupils. The certificates will ordinarily be kept in the custody of the headmaster, but should be given to pupils for exhibition to their parents or guardians, at the end of each term. The headmaster shall forward to the Secretary to the Board through the Inspector a copy of the register of pupils to whom the certificates have been assigned for record in his office.

It will obviously be necessary to take the utmost possible care to preserve the certificates from loss, injury or destruction; for, while headmasters will do well to keep books with duplicate entries, it may happen that a certificate will be irreplaceable.

Under no circumstances should pages be removed or erasures be made. Any alterations that may be necessary should be legibly *signed* and dated by the headmaster as any such alteration may clearly become the subject of future enquiry. Erasures and unauthenticated or fraudulent alterations will lead to the cancelment of the certificate.

The greatest care will be taken of certificates while in the custody of the department but no responsibility can be accepted.

No second certificate form shall on any account be issued to a pupil without the sanction of the Board. In applying for such sanction, the clearest possible evidence of accidental loss or destruction should be furnished.

TRANSFERS.

When a pupil is transferred from one school to another, the original certificate will not be given to the pupil, but will be sent, with due regard to safe delivery, by the headmaster of the school left to the headmaster of the school joined.

DISQUALIFICATION OF PUPILS.

The results of the public examination will not be entered in the certificate of any pupil whose certificate does not show that he has attended the requisite number of days during the second term.

Pupils whose certificates do not fulfil all the other required conditions will be similarly disqualified.

ATTENDANCE AT SCHOOL NECESSARY.

Pupils can appear at the public examination only when presented thereat by their headmaster and must have attended the fourth, fifth and sixth forms of a recognised school.

Pupils presented for a second or any subsequent examination must have further attended a recognised school for at least the term in which the examination is held and the term immediately preceding.

SCHOOL WORK.

The Board considers that the entry referring to the school work in handwriting and manual training may suitably take the form of a remark as in the case of physical training.

When a pupil has studied any particular subject or subjects along with pupils of a higher class, a note may be added in connection with the entry of the percentage of marks for school work to the effect that the marks refer to work done in a form or set higher than the form to which the pupil nominally belongs.

Many schools have already a system of awarding school marks based upon the work done in the school from day to day, but it is feared that in many others there is no such system and the only marks given to the pupils express the results of periodical and formal written examinations.

To make the entries in the school-leaving certificates with regard to school work of any real value, it will be necessary for all schools to adopt a system which gives great prominence to all the regular class work.

The attention of the headmasters is drawn to the fact that it will greatly detract from the value of the certificates provided by them should the Inspector find it necessary to make an endorsement upon the certificates commenting adversely upon the system of awarding the school marks or to the effect that they are based entirely upon formal written examinations.

Oral work, compositions, class exercises, note books, map drawing and other practical work should be taken into account.

FAILURE AT MATRICULATION.

In the case of school-leaving certificates filled in on behalf of pupils in the sixth form in 1912, there must be an entry on page 2, when any year has been previously spent in that form, to show whether the pupil appeared for the Matriculation examination and, if so, the subjects in which he failed on each occasion, thus :—

1909, Form VI, A. B. C. High School, Matriculation, 1909 failed in English and Mathematics.

1910, Form VI, D. E. F. High School, Matriculation, 1910 failed in Science.

Should any instance be found in which this instruction has been neglected, the pupil will be disqualified from holding a certificate.

SCHOOL DAY AND ATTENDANCE.

The school day shall consist of at least four hours; but two meetings, each of not less than two hours' duration whether on the same or on different days, may be counted as one attendance.

"FORM AVERAGE."

This entry should be the average of the marks given for school work to the form as a whole (for any particular subject) and not to any division of a form.

PERCENTAGE OF MARKS "AT SCHOOL" (CERTIFICATE, PAGE 18).

These entries should be made by the headmaster who presents the pupil, but should represent the average of the six entries and the three Inspector's Examinations, whether made at one and the same school or at more than one school, which are to be taken into account in regard to work in the fourth, fifth and sixth forms, respectively.

It must be noted in this connection that the school work of a year in which the pupil is not promoted to a higher form, or is not presented for the examination, shall not be taken into account.

On page 19, the entries may be the averages of less than six term entries, if during six terms the subject has not been successively studied. On page 20, these entries will ordinarily be the average for two terms' work only.

"RANK" (CERTIFICATE, PAGE 18).

This will represent the order of merit in each subject in which the headmaster places the pupils presented by him at any one time; if two or more pupils are bracketed as of equal rank, the requisite number of places must be omitted from the series thus, if two pupils are ranked first, the next pupil in order of merit will be third. The total number of pupils placed in order of merit should always be shown and the entry take this form :—27th out of 65, where 65 pupils are being presented at one and the same time from the school.

MARKS OF IDENTITY.

It is obviously of extreme importance that the owner of a school-leaving certificate should be able to prove his ownership at any time if called upon to do so. This fact should be impressed upon pupils.

Finger-prints are the most convenient and certain mode of identification.

The apparatus required for taking impressions consist of the following articles :—

A sheet of tin or copper 10½ inches by 7, or of such other size as experience may show to be most convenient, screwed, down by its corners to a board one inch thick, an ordinary printer's roller and a tin of printer's ink. Both roller and slab must be thoroughly cleansed with kerosene oil each occasion after use, dried with a rag and put out of the way of dust.

The manner in which impressions should be taken is explained below :—

(i) Squeeze a drop of ink on the plate and work it with the roller till it forms an even layer over the surface. The ink must be so thin as to allow the colour of the plate to show through it.

(ii) Then take the little finger of the left hand, roll the bulb slightly on the inked slab and roll it again on the paper in the space marked for that finger ; do the same with each of the other fingers and thumb in succession so that the imprints of them may be taken in their allotted places on the paper.

A drop or two of kerosene oil added to the ink makes it more fluid. The inked finger should only be rolled once on the paper from one side to the other and then removed cleanly without smudging the pattern. To afford clear scope for identification, the whole of the finger (or thumb) between the tip and first joint must be impressed.

Where evidence of identity is to be based upon personal marks and not upon finger-prints, such evidence as is afforded by height, colour, physical development, dentition, etc., is not suitable as being liable to alteration.

Personal peculiar marks, such as moles, permanent scars and abnormalities, are the only ones that can be utilized. In describing them, care should be taken to select two or three such marks which are distinctive. Their size, shape and exact position should be recorded, *e.g.*, a brown mole, size of a pea, situated 1½ inches to the right of the left nipple, an oval depressed scar 3 inches below right knee-joint.

TRANSITORY REGULATIONS.

During 1912 and 1913 the course would comprise only 2 and 4 terms, respectively. The Madras University syllabuses in languages and the Madras S. S. L. C. syllabuses in respect of other subjects will be followed generally, pending revision of the syllabuses as a whole.

REGISTERS, ETC.

In the high school section the following special registers shall be maintained in the forms given in the appendix to these instructions and shall be open to examination at any time by the Inspector of Schools concerned, or by members of the Board, or by persons deputed by the Board.

1. *Daily Attendance Register.*—This shall be maintained for classes of the high school section only, in place of the attendance registers hitherto prescribed for use.

2. *Teacher's Register.*—This register shall be in book form. There shall be one book for each form, or section of a form, in the high school section, and in this book there shall be one page for each subject in each month. The teacher of each subject in the high school section shall be responsible for the entry of marks relating to his subject in this register in accordance with the instructions given below. The entries shall be initialled by him when the marks are entered.

The marks entered in this register will relate to (*a*) class work, and (*b*) examination work.

(*a*) *Class Work.*—This will be of two kinds, oral and written. By written work is meant work done in writing within a school period to test what cannot be so accurately tested orally. The term "written work," besides its ordinary meaning, may be taken to include map-drawing and the maintenance of note books in the various subjects. The aim of both oral and written class work shall be to ascertain whether a lesson has been satisfactorily prepared out of school, or whether due attention has been paid to instruction given in school.

It is not necessary that the whole or even the major part of a period should be devoted to work for which marks are assigned.

(i) The number of mark entries for each pupil for any one month shall not be less than six in English, and less than four in other subjects, during the month, except in the case of science and drawing where some relaxation of this rule is permissible.

(ii) No previous notice shall be given of the periods in which marks are to be recorded.

(iii) Pupils who are absent, whether with or without permission, shall receive no marks for the period or periods in which they are absent.

(iv) Marks for oral class work shall be entered in the register before the teacher leaves the class room, and marks for written work, so far as possible, not later than three days after the close of the lesson to which they relate.

(v) Separate exercise books shall be kept by pupils for written class work in each subject and these books shall be preserved as records for one year.

(vi) The maximum marks for class work for purposes of any one entry shall be ten.

(*b*) *Examination Work.*—(i) In each subject the marks of at least one examination shall be recorded in the teacher's register during the course of each term.

(ii) The total number of entries relating to examinations shall not exceed two for any one subject in any one term.

(iii) The maximum marks for examination work in any subject in any one term shall not exceed 30 per cent of the maximum marks assigned to class work in the same subject in the same term.

(iv) No previous notice of the date of examinations need be given to the pupils.

(v) The rules regarding absence without leave in the case of class work shall be applicable also in the case of examinations.

(vi) Examinations may be held at any time in the term, and it is not necessary that there shall be an examination in *all* subjects at the *close* of a term.

(vii) In the case of second language periods, and in all cases of division of a form, or section of a form, during one period for different subjects, special arrangements shall be made to ensure the prompt entry of marks in the teacher's register by those teachers who are not able to have the register with them in class.

(viii) So far as possible, examination work shall be entrusted not to the teacher responsible for the subject in the class, but to a teacher who takes the subject in another class, or to any other competent person. Copies of all questions set in examinations shall be kept as permanent school records.

3. *The Monthly and Terminal Registers.*—(i) At the end of each month the marks assigned to each pupil in each subject shall be added up and the totals transferred in the form of percentages from the teacher's register to the monthly and terminal register.

(ii) This register shall be in the form of a book containing one sheet for each month of the school year, and one sheet for each term. Each sheet shall be numbered.

(iii) There shall be one book for each form for each school year.

(iv) The headmaster shall be at liberty to moderate marks given where there are more sections than one in a class.

(v) Details of each pupil's progress and conduct during the month will be entered in the teacher's register with the headmaster's remarks, if any. Such details shall be summarised on the monthly sheet and a final record made in the terminal register by the headmaster. Similar records will be made with reference to religious instruction, manual training, athletics and games, and handwriting.

4. *Conduct Register.*—(i) In this register, which shall be kept either separately for each class, or for all pupils of the high school section together, there shall be one page for each term. On this page, which shall have no specific headings, the headmaster shall record at the end of the term special points noted by himself or his staff regarding the character, conduct and special aptitude of each pupil.

(ii) He shall take into account the remarks recorded in the attendance register and monthly and terminal registers, but shall not confine himself to a consideration of these remarks which relate almost entirely to behaviour in school.

(iii) Particular attention shall be paid to a pupil's behaviour out of school, whether on the play ground or elsewhere.

(iv) Any decided interest shown in outdoor pursuits not directly connected with school work shall be recorded. Special merit or failure in such matters as truthfulness, personal cleanliness, neatness, punctuality, kindness to fellow pupils, obedience, courage, etc., shall receive due attention.

(v) The headmaster should impress on his staff the importance of close association with pupils out of school hours, and should stimulate their interest in their pupils by calling them together to obtain their advice when the time comes for recording remarks in the conduct register.

(vi) At the bottom of the page in the conduct register shall be written an exact copy of the remarks entered for the corresponding term under the heading "special aptitudes, character and conduct" in the Secondary School-Leaving Certificate of the pupil concerned.

5. *Athletics and Games Register.*—(i) In this register, which shall be kept either separately for each class or for all pupils of the high school section together, there shall be one page for each pupil for each term. On this page shall be recorded by the headmaster:—

The games and physical exercises in which the pupil has taken part during the term.

Attendance at the same, regular or irregular. Progress made in the same.

(ii) At the bottom of the page shall be written an exact copy of the remarks entered for the corresponding term under the head *athletics and games* in the Secondary School-Leaving Certificate of the pupil concerned. The following measurements shall be recorded for each pupil separately in this register, when he joins the high school section, and at least once a year during his stay in that section.

Age.	Chest contracted.
Weight.	Waist.
Height.	Upper right arm.
Neck.	Left calf.
Chest expanded.	

The registers prescribed above will contain all the materials required for entries under the various terminal headings of the School-Leaving Certificate. From these registers duplicate copies of the School-Leaving Certificates shall be prepared, subject to regulations issued by the Board, in the event of the original certificates being lost. For the preparation of these duplicate copies there shall also be preserved in a separate book, to be maintained for the purpose, copies of the entries made on pages 2 and 3 of each pupil's certificate.

All entries in all the registers prescribed above shall be made in ink. No entry once made shall be erased, and all corrections shall be initialled.

The registers, when not in use, shall be in the custody of the headmaster who shall see that they are kept under lock and key. The headmaster shall sign or countersign, as the case may be, all registers at the end of every month, in the case of monthly entries, and at the end of every term in the case of terminal registers.

The registers mentioned above will take the place of those now in use for similar purposes in the high school section of high schools and will be supplied on payment by the Education Department.

Spare copies of notifications, etc., are often asked for long after their publication, when the matter has been broken up, necessitating its resetting and thereby causing inconvenience to the Press and waste of money. When spare copies are wanted, a note to that effect, stating the number of copies, should be made at foot of such manuscript.

3. If no instructions accompany any matter, it will be published only once.

3. M. Chakrapani Rao, B.A., B.L., will continue to be in charge of the Alur Sub-Taluk, during the absence of S. Sounderarajiengar on other duty.

Circular No. 2991-8, *dated Bangalore,* 18*th*—23*rd September* 1912.

It will have been observed by Deputy Commissioners that a large number of applications for gomal land and land for coffee and cardamom cultivation are rejected by this office. Undersigned has the honor to suggest that if the applications are properly scrutinised in the district and the instructions issued by Government from time to time duly observed, a good deal of work could be saved all round. Insufficiency of land for the village cattle, a large extent of assessed land already existing, the existence of *hallas* and established pathways through the land should, as a rule, be taken as details arguing against an application and any special reason that may be advanced as an argument in favour of it should be weighed against the reason for the general rule, before the application is accepted and submitted to this office.

2. It is necessary indeed to encourage the extension of cultivation and care should be taken that subordinate officials do not construe this circular as arguing an intention the other way.

To—The Deputy Commissioners of Districts.

4. When such deposit shall not be made nor the remaining purchase money paid up, the lands shall be resold at the expense and risk of the first purchaser.

5. Persons bidding at the sale may be required to state whether they bid on their own account or as agents, and in the latter case to deposit a written authority signed by their principals, otherwise their bids may be rejected.

The sale shall be stayed, if the defaulters or any other person acting on their behalf or claiming an interest in the land, tender the full amount of the arrears of revenue with the interest and other charges, before the property is knocked down, or give satisfactory proof that the amount of arrears, etc., has been paid up or furnish security under Section 170 of the Mysore Land Revenue Code.

7. The purchaser will, as soon as the sale is confirmed, be placed in immediate possession of the village which will be registered in his name and a certificate of sale signed and sealed by the Deputy Commissioner will be granted therefor. It is to be distinctly understood that the Government are not responsible for errors of description or in estimated extent.

EDUCATION DEPARTMENT.

Notification D. No. 6, dated 16th September 1912.

The following Subsidiary Rules framed by the Board for the award of Secondary School Leaving Certificates under Rule IX of Government Notification No. 1375-6—Edn. 432-11-7, dated 12th August 1912, are published for general information :—

DATE AND NATURE OF PUBLIC EXAMINATION.

The Public Examination under the Scheme will be held on the last Monday in March every year, unless it be a holiday authorised by Government, when the examination will begin on the next working day.

There shall be only one paper in English as in other subjects, English Composition bearing on the text-books and non-detailed study books done at school generally. General subjects for essays may also be set.

The papers shall ordinarily afford a wide choice of questions.

THE SCHOOL YEAR.

The school year commences on the reopening of the schools after the summer vacation, and the first term will close with the commencement of the Dasara holidays. The second term will begin with the reopening of the school after the Dasara and close at the beginning of the summer vacation.

PRESENTATION FOR THE PUBLIC EXAMINATION.

A list of the pupils to be presented at the public examination must be forwarded by the headmaster of the school from which they are presented to the Secretary to the Board not later than the 20th of December preceding the examination. This list should be accompanied by the treasury receipts for the fees; the fee will not, under any circumstances, be returned. Headmasters are, therefore, requested to take particular care to see that the pupil is eligible for the examination.

To present a pupil for the public examination will be regarded as a declaration on the part of the headmaster that, in his opinion, the pupil, by the end of that school year, will have completed satisfactorily a definite course of study. In deciding whether a pupil is competent to appear, the headmaster should be guided by considerations similar to those on which he decides the annual promotions from one form to another.

The school-leaving certificates of pupils to be presented at the public examination must reach the Secretary to the Board not later than the 1st April immediately succeeding the examination.

AGE LIMIT.

The pupils to be presented in any year must have completed the age of 15 by the 1st of March of that year.

ENTRIES IN REGARD TO NAME, ETC., AND SCHOOLS ATTENDED.

The entry No. 7 of page 2 of the school-leaving certificate should be made only when sending the certificates in, at the end of the course in the sixth form. Entries 1, 2, 3, 4, 5 and 6 should be filled in, as a rule, at the commencement of the fourth form course, but in the case of pupils joining the fifth and sixth forms in 1912 should be filled in as soon as the certificate is provided. Entry No. 6 must include *all* schools attended previously to the making of the entry.

ISSUE AND CARE OF CERTIFICATE FORM.

Certificate forms will be issued through the Inspectors only, and only to managers or headmasters. A treasury receipt for the value of the forms required must be furnished with the application. Headmasters will issue the forms to their pupils. The certificates will ordinarily be kept in the custody of the headmaster, but should be given to pupils for exhibition to their parents or guardians, at the end of each term. The headmaster shall forward to the Secretary to the Board through the Inspector a copy of the register of pupils to whom the certificates have been assigned for record in his office.

It will obviously be necessary to take the utmost possible care to preserve the certificates from loss, injury or destruction; for, while headmasters will do well to keep books with duplicate entries, it may happen that a certificate will be irreplaceable.

Under no circumstances should pages be removed or erasures be made. Any alterations that may be necessary should be legibly *signed* and dated by the headmaster as any such

alteration may clearly become the subject of future enquiry. Erasures and unauthenticated or fraudulent alterations will lead to the cancelment of the certificate.

The greatest care will be taken of certificates while in the custody of the department but no responsibility can be accepted.

No second certificate form shall on any account be issued to a pupil without the sanction of the Board. In applying for such sanction, the clearest possible evidence of accidental loss or destruction should be furnished.

TRANSFERS.

When a pupil is transferred from one school to another, the original certificate will not be given to the pupil, but will be sent, with due regard to safe delivery, by the headmaster of the school left to the headmaster of the school joined.

DISQUALIFICATION OF PUPILS.

The results of the public examination will not be entered in the certificate of any pupil whose certificate does not show that he has attended the requisite number of days during the second term.

Pupils whose certificates do not fulfil all the other required conditions will be similarly disqualified.

ATTENDANCE AT SCHOOL NECESSARY.

Pupils can appear at the public examination only when presented thereat by their headmaster and must have attended the fourth, fifth and sixth forms of a recognised school.

Pupils presented for a second or any subsequent examination must have further attended a recognised school for at least the term in which the examination is held and the term immediately preceding.

SCHOOL WORK.

The Board considers that the entry referring to the school work in handwriting and manual training may suitably take the form of a remark as in the case of physical training.

When a pupil has studied any particular subject or subjects along with pupils of a higher class, a note may be added in connection with the entry of the percentage of marks for school work to the effect that the marks refer to work done in a form or set higher than the form to which the pupil nominally belongs.

Many schools have already a system of awarding school marks based upon the work done in the school from day to day, but it is feared that in many others there is no such system and the only marks given to the pupils express the results of periodical and formal written examinations.

To make the entries in the school-leaving certificates with regard to school work of any real value, it will be necessary for all schools to adopt a system which gives great prominence to all the regular class work.

The attention of the headmasters is drawn to the fact that it will greatly detract from the value of the certificates provided by them should the Inspector find it necessary to make an endorsement upon the certificates commenting adversely upon the system of awarding the school marks or to the effect that they are based entirely upon formal written examinations.

Oral work, compositions, class exercises, note books, map drawing and other practical work should be taken into account.

FAILURE AT MATRICULATION.

In the case of school-leaving certificates filled in on behalf of pupils in the sixth form in 1912, there must be an entry on page 2, when any year has been previously spent in that form, to show whether the pupil appeared for the Matriculation Examination and, if so, the subjects in which he failed on each occasion, thus :—

1909, Form VI, A. B. C. High School, Matriculation, 1909 failed in English and Mathematics.

1910, Form VI, D. E. F. High School, Matriculation, 1910 failed in Science.

Should any instance be found in which this instruction has been neglected, the pupil will be disqualified from holding a certificate.

SCHOOL DAY AND ATTENDANCE.

The school day shall consist of at least four hours; but two meetings, each of not less than two hours' duration whether on the same or on different days, may be counted as one attendance.

"FORM AVERAGE."

This entry should be the average of the marks given for school work to the form as a whole (for any particular subject) and not to any division of a form.

PERCENTAGE OF MARKS "AT SCHOOL" (CERTIFICATE, PAGE 18).

These entries should be made by the headmaster who presents the pupil, but should represent the average of the six entries and the three Inspector's examinations, whether made at one and the same school or at more than one school, which are to be taken into account in regard to work in the fourth, fifth and sixth forms, respectively.

It must be noted in this connection that the school work of a year in which the pupil is not promoted to a higher form, or is not presented for the examination, shall not be taken into account.

On page 19, the entries may be the averages of less than six term entries, if during six terms the subject has not been successively studied. On page 20, these entries will ordinarily be the average for two terms' work only.

"RANK" (CERTIFICATE, PAGE 18).

This will represent the order of merit in each subject in which the headmaster places the pupils presented by him at any one time; if two or more pupils are bracketed as of equal rank, the requisite number of places must be omitted from the series thus:—if two pupils are ranked first, the next pupil in order of merit will be third. The total number of pupils placed in order of merit should always be shown and the entry take this form:—27th, out of 65, where 65 pupils are being presented at one and the same time from the school.

MARKS OF IDENTITY.

It is obviously of extreme importance that the owner of a school-leaving certificate should be able to prove his ownership at any time if called upon to do so. This fact should be impressed upon pupils.

Finger-prints are the most convenient and certain mode of identification.

The apparatus required for taking impressions consist of the following articles:—

A sheet of tin or copper 10½ inches by 7, or of such other size as experience may show to be most convenient, screwed down by its corners to a board one inch thick, an ordinary printer's roller and a tin of printer's ink. Both roller and slab must be thoroughly cleansed with kerosene oil each occasion after use, dried with a rag and put out of the way of dust.

The manner in which impressions should be taken is explained below:—

(i) Squeeze a drop of ink on the plate and work it with the roller till it forms an even layer over the surface. The ink must be so thin as to allow the colour of the plate to show through it.

(ii) Then take the little finger of the left hand, roll the bulb slightly on the inked slab and roll it again on the paper in the space marked for that finger; do the same with each of the other fingers and thumb in succession so that the imprints of them may be taken in their allotted places on the paper.

A drop or two of kerosene oil added to the ink makes it more fluid. The inked finger should only be rolled once on the paper from one side to the other and then removed cleanly without smudging the pattern. To afford clear scope for identification, the whole of the finger (or thumb) between the tip and first joint must be impressed.

Where evidence of identity is to be based upon personal marks and not upon finger-prints, such evidence as is afforded by height, colour, physical development, dentition, etc., is not suitable as being liable to alteration.

Personal peculiar marks, such as moles, permanent scars and abnormalities, are the only ones that can be utilized. In describing them, care should be taken to select two or three such marks which are distinctive. Their size, shape and exact position should be recorded, *e.g.*, a brown mole, size of a pea, situated 1½ inches to the right of the left nipple, an oval depressed scar 3 inches below right knee-joint.

TRANSITORY REGULATIONS.

During 1912 and 1913 the course would comprise only 2 and 4 terms, respectively. The Madras University syllabuses in languages and the Madras S. S. L. C. syllabuses in respect of other subjects will be followed generally, pending revision of the syllabuses as a whole.

REGISTERS, ETC.

In the high school section the following special registers shall be maintained in the forms given in the appendix to these instructions and shall be open to examination at any

time by the Inspector of Schools concerned, or by members of the Board, or by persons deputed by the Board.

1. *Daily Attendance Register.*—This shall be maintained for classes of the high school section only, in place of the attendance registers hitherto prescribed for use.

2. *Teacher's Register.*—This register shall be in book form. There shall be one book for each form, or section of a form in the high school section, and in this book there shall be one page for each subject in each month. The teacher of each subject in the high school section shall be responsible for the entry of marks relating to his subject in this register in accordance with the instructions given below. The entries shall be initialled by him when the marks are entered.

The marks entered in this register will relate to (*a*) class work, and (*b*) examination work.

(*a*) *Class Work.*—This will be of two kinds, oral and written. By written work is meant work done in writing within a school period to test what cannot be so accurately tested orally. The term "written work," besides its ordinary meaning, may be taken to include map-drawing and the maintenance of note books in the various subjects. The aim of both oral and written class work shall be to ascertain whether a lesson has been satisfactorily prepared out of school, or whether due attention has been paid to instruction given in school. It is not necessary that the whole or even the major part of a period should be devoted to work for which marks are assigned.

(i) The number of mark entries for each pupil for any one month shall not be less than six in English, and less than four in other subjects, during the month, except in the case of science and drawing where some relaxation of this rule is permissible.

(ii) No previous notice shall be given of the periods in which marks are to be recorded.

(iii) Pupils who are absent without permission, shall receive no marks for the period or periods in which they are absent.

(iv) Marks for oral class work shall be entered in the register before the teacher leaves the class room, and marks for written work, so far as possible, not later than three days after the close of the lesson to which they relate.

(v) Separate exercise books shall be kept by pupils for written class work in each subject and these books shall be preserved as records for one year.

(vi) The maximum marks for class work for purposes of any one entry shall be ten.

(*b*) *Examination Work.*—(i) In each subject the marks of at least one examination shall be recorded in the teacher's register during the course of each term.

(ii) The total number of entries relating to examinations shall not exceed two for any one subject in any one term.

(iii) The maximum marks for examination work in any subject in any one term shall not exceed 30 per cent of the maximum marks assigned to class work in the same subject in the same term.

(iv) No previous notice of the date of examinations need be given to the pupils.

(v) The rules regarding absence without leave in the case of class work shall be applicable also in the case of examinations.

(vi) Examinations may be held at any time in the term, and it is not necessary that there shall be an examination in *all* subjects at the *close* of a term.

(vii) In the case of second language periods, and in all cases of division of a form, or section of a form, during one period for different subjects, special arrangements shall be made to ensure the prompt entry of marks in the teacher's register by those teachers who are not able to have the register with them in class.

(viii) So far as possible, examination work shall be entrusted not to the teacher responsible for the subject in the class, but to a teacher who takes the subject in another class, or to any other competent person. Copies of all questions set in examinations shall be kept as permanent school records.

3. *The Monthly and Terminal Registers.*—(i) At the end of each month the marks assigned to each pupil in each subject shall be added up and the totals transferred in the form of percentages from the teacher's register to the monthly and terminal register.

(ii) This register shall be in the form of a book containing one sheet for each month of the school year, and one sheet for each term. Each sheet shall be numbered.

(iii) There shall be one book for each form for each school year.

(iv) The headmaster shall be at liberty to moderate marks given where there are more sections than one in a class.

(v) Details of each pupil's progress and conduct during the month will be entered in the teacher's register with the headmaster's remarks, if any. Such details shall be summarised on the monthly sheet and a final record made in the terminal register by the headmaster. Similar records will be made with reference to religious instruction, manual training, athletics and games, and handwriting.

4. *Conduct Register.*—(i) In this register, which shall be kept either separately for each class, or for all pupils of the high school section together, there shall be one page for each pupil for each term. OFFICE OF THE COMPILER, *MYSORE GAZETTE.*

NOTICE.

1. The *Mysore Gazette* is published at Bangalore every Thursday. Matter for publication in the Gazette is often sent late to the Press. This involves considerable inconvenience to the Press and expense to Government. All matter intended for publication in Parts II, III and IV should therefore reach this office not later than Tuesday evening, and that for Part I not later than the forenoon of Wednesday, for the following Thursday's issue of the Gazette.

2. Spare copies of notifications, etc., are often asked for long after their publication, when the matter has been broken up, necessitating its resetting and thereby causing inconvenience to the Press and waste of money. When spare copies are wanted, a note to that effect, stating the number of copies, should be made at foot of such manuscript.

3. If no instructions accompany any matter, it will be published only once.

4. Applications for the supply of the Gazette on *Public Service* should be made to the Secretary to the Government of Mysore, General and Revenue Departments.

5. Under Government Proceedings No. G. 622-32—G. M. 74-10-36, dated 27th July 1911, and Government Proceedings No. G. 4914-23—G. M. 46-11-36, dated 18th March 1912, the English or the Kanarese portion of the *Mysore Gazette* will be supplied to Shanbhogs, Patels, Nad Patels and Shekdars within the Province at *half* rates on production of a certificate from the Amildar of the taluk to the effect that such applicant is *bonâ fide* on duty at the time.

6. Under Government Proceedings No. 2633-41—Mis. 558, dated 21st August 1900, the English or the Kanarese portion of the *Mysore Gazette* will be supplied at *half* rates to the members of the Mysore Representative Assembly during their tenure of office as such members.

7. All subscriptions and advertisement charges are payable *in advance.* When postage labels are sent in payment of subscription, etc., one anna extra per rupee should be added.

8. As Government Treasuries in Mysore are authorized to receive and credit Gazette subscriptions as well as publication charges remitted by Courts or private parties, all such moneys should be sent to Treasuries and only Treasury receipts forwarded to this office. No money orders or cash will be received by the undersigned except from parties outside the Province.

9. Much inconvenience is caused to this office by subscribers omitting to give their full and correct addresses and writing illegibly on the money order coupons.

10. Communications on post cards or on paper less than half a sheet of foolscap, will not receive attention; and no communication should be sent on Government Service by private parties.

11. An efficient system of check and counter check is maintained over the despatch of Gazette copies forwarded through post. Duplicates cannot be supplied in any case of non-delivery.

12. Complaints regarding non-receipt of the Gazette should be forwarded to the undersigned within a week after the date on which it is due.

13. The rates of subscription to the Gazette are as follow :—

Rule 3.—The Municipality should not be made to meet the cost of water drawn for watering public roads and flushing drains even at half the cost.

Rule 6.—The existing stand-pipes should not be removed without consulting the Council. The minimum distance allowed between every two-stand pipes may be raised to 500 feet instead of to 600 feet and this minimum should apply to stand-pipes to be erected hereafter.

Rule 10 (*a*).—The imposition of a new tax such as meter rent is an additional burden and, as such, is not admissible. The meters are intended for the benefit of the Water-supply Department and the public should not be burdened with any meter rent. Verbal alterations in other rules regarding

OFFICE OF THE COMPILER, *MYSORE GAZETTE.*

NOTICE.

1. The *Mysore Gazette* is published at Bangalore every Thursday. Matter for publication in the Gazette is often sent late to the Press. This involves considerable inconvenience to the Press and expense to Government. All matter intended for publication in Parts II, III and IV should therefore reach this office not later than Tuesday evening, and that for Part I not later than the forenoon of Wednesday, for the following Thursday's issue of the Gazette.

2. Spare copies of notifications, etc., are often asked for long after their publication, when the matter has been broken up, necessitating its resetting and thereby causing inconvenience to the Press and waste of money. When spare copies are wanted, a note to that effect, stating the number of copies, should be made at foot of such manuscript.

3. If no instructions accompany any matter, it will be published only once.

4. Applications for the supply of the Gazette on *Public Service* should be made to the Secretary to the Government of Mysore, General and Revenue Departments.

No money orders or cash will be received by the undersigned except from parties outside the Province.

1. Read concerting measures to relieve distress caused by the abnormal rain fall on the night of the 28th September 1912, among some of the inhabitants of Siddikatta in Bangalore City.

Resolved that, as regards the relief to be given to the owners of the buildings adjoining the City Market on its west, in the 3rd Street in Siddikatta, that have come to grief on account of the abnormal rainfall on the night of the 28th September 1912, the said buildings be acquired as resolved on 21st January 1909 by the Council and the valuation of the houses fixed at Rs. 11,000 be paid for this acquisition, that such of them as desire to have houses built for them be given a site each and a house built thereon at a cost equal to the amount of compensation payable in each case, by way of relief, and that such of those as are not agreeable to this arrangement, be paid compensation according to law.

II. The Council is strongly of opinion that the houses in the next four rows to the west which have also suffered more or less should be acquired on sanitary grounds at a cost of about Rs. 75,000, and the sites together with those of the first row utilized for the extension and improvement of the present market which requires immediate opening up. The owners of such houses as have completely fallen in these four rows be shewn similar concession as resolved in the case of the sufferers in the first row.

III. Resolved that, as the Municipality is not in a position to meet this heavy and unforeseen expenditure, the Government be requested to kindly grant a sum of Rs. 60,000 which has been withheld from the usual annual grant of one lakh of rupees hitherto made by Government for the improvement of the City the balance of Rs. 26,000 will be met out of the savings of Rs. 1,35,667 at the credit of the Municipality at the close of last year.

OFFICE OF THE COMPILER, *MYSORE GAZETTE.*

NOTICE.

1. The *Mysore Gazette* is published at Bangalore every Thursday. Matter for publication in the Gazette is often sent late to the Press. This involves considerable inconvenience to the Press and expense to Government. All matter intended for publication in Parts II, III and IV should therefore reach this office not later than Tuesday evening, and that for Part I not later than the forenoon of Wednesday, for the following Thursday's issue of the Gazette.

2. Spare copies of notifications, etc., are often asked for long after their publication, when the matter has been broken up, necessitating its resetting and thereby causing inconvenience to the Press and waste of money. When spare copies are wanted, a note to that effect, stating the number of copies, should be made at foot of such manuscript.

3. If no instructions accompany any matter, it will be published only once.

4. Applications for the supply of the Gazette on *Public Service* should be made to the Secretary to the Government of Mysore, General and Revenue Departments.

5. Under Government Proceedings No. G. 622-32—G. M. 74-10-36, dated 27th July 1911, and Government Proceedings No. G. 4914-23—G. M. 46-11-36, dated 18th March 1912, the English or the Kanarese portion of the *Mysore Gazette* will be supplied to Shanbhogs, Patels, Nad Patels and Shekdars within the Province at *half* rates on production of a certificate from the Amildar of the taluk to the effect that such applicant is *bonâ fide* on duty at the time.

6. Under Government Proceedings No. 2633-41—Mis. 558, dated 21st August 1900, the English or the Kanarese portion of the *Mysore Gazette* will be supplied at *half* rates to the members of the Mysore Representative Assembly during their tenure of office as such members.

7. All subscriptions and advertisement charges are payable *in advance*. When postage labels are sent in payment of subscription, etc., one anna extra per rupee should be added.

8. As Government Treasuries in Mysore are authorized to receive and credit Gazette subscriptions as well as publication charges remitted by Courts or private parties, all such moneys should be sent to Treasuries and only Treasury receipts forwarded to this office. No money orders or cash will be received by the undersigned except from parties outside the Province.

9. Much inconvenience is caused to this office by subscribers omitting to give their full and correct addresses and writing illegibly on the money order coupons.

10. Communications on post cards or on paper less than half a sheet of foolscap, will not receive attention; and no communication should be sent on Government Service by private parties.

11. An efficient system of check and counter check is maintained over the despatch of Gazette copies forwarded through post. Duplicates cannot be supplied in any case of non-delivery.

12. Complaints regarding non-receipt of the Gazette should be forwarded to the undersigned within a week after the date on which it is due.

"In supersession of Government Notification No. Fl. 4725—B. 35-05-19, dated the 27th January 1906, and in exercise of the powers conferred by Section 25, Sub-section (1), clause (*c*) and Sub-section (2) of the Co-operative Societies Regulation, III of 1905, the Government of His Highness the Maharaja are pleased to remit all fees payable under the law of registration for the time being in force, in respect of instruments executed by or on behalf of any Co-operative Society for the time being registered under that Regulation or by an officer or member of such a society and relating to the business thereof.

Provided that the Government may at any time withdraw such exemption in the case of any society."

But the exemption would apply to such fees as are leviable under Section 78 for registration, private attendance, etc., and fees for attesting powers of attorney and for the safe custody of documents as they are fees to be credited to Government."

NOTIFICATION.

CREATION OF LARGE SELF-CONTAINED FARMS.

At the Dasara Session of the Conference of 1911 a proposition was moved advocating the grant of certain blocks of land, such as *bechirak* villages, assessed waste lands not in use by the Amrut Mahal Department, *vanams* or cultivable forest lands containing *tari, khushki, bagayat* and *gomal*, as self-contained farms to agriculturists to the extent of 50 farms of 150 acres or upwards each in each district on certain conditions and concessions.

2. The main points urged were (1) that these farms are intended to be worked on improved methods; (2) that they are intended for educated men who can command capital and who wish to adopt agriculture as a profession ; and (3) that each such farm should be kept or worked as a whole, its owner or his heirs or successors not being allowed to break it up, but being allowed to divide the profits among themselves.

3. The Conference while accepting the principle of the proposition, *viz.*, the encouragement of large farms, referred the subject back to the Agricultural Committee for submission of a working scheme.

4. Subsequently, a Sub-Committee consisting of Rajasabha Bhushana Mr. K. P. Puttanna Chetty, Dewan Bahadur, retired Councillor, Rajakarya Prasaktha Mr. D. Shama Rao, R.B., Superintendent of Revenue Survey in Mysore, Mr. D. Venkataramaiya, B.A., Advocate and member of the Economic Conference and Mr. C. Srinivasa Rao, Coffee Planter and member of the Agricultural Committee, Chikmagalur, was formed for consideration of the subject, and the following are the recommendations of the Sub-Committee:—

(i) In the opinion of the Sub-Committee it is desirable to advocate the formation of holdings consisting of one or more survey numbers in a contiguous block ranging from 50 to 150 acres and more, out of (*a*) assessed waste lands or unassessed lands not allotted for any communal purpose, (*b*) *bechirak* villages, (*c*) lands set apart for *gomal*, where available, without prejudice to the interests of the village cattle, (*d*) shendi *vanams*, (*e*) unused Amrut Mahal kavals, etc.

(ii) The Sub-Committee is further of opinion that the aid of Legislature should be sought for to make these holdings impartible but not inalienable.

(iii) That such holdings should be granted under the *Shraya Rules* under Rule 44* of the Land Revenue Rules only to persons who can afford and will undertake to introduce and utilise improved agricultural implements, methods, seeds and crops, so as to practically demonstrate to their neighbours the advantages of such implements, methods, etc.

5. The Agricultural Committee called for statements of assessed waste lands available for cultivation in all the districts in convenient and large blocks with particulars regarding water-supply, nature of soil and the kind of crops for which the land is suited.

6. The statements with the above particulars have been received from the districts of Bangalore, Kolar, Mysore and Chitaldrug, according to which there are about 116 such blocks covering an area of 9,780 acres in the Bangalore District, 338 blocks comprising 25,000 acres in the Kolar District, 222 comprising 16,700 acres in the Mysore District and 944 comprising 110,331 acres in the Chitaldrug District. Most of these are fit only for dry cultivation; in a large number of them wells have to be dug and labour has to be got from outside.

7. Further particulars regarding these blocks may be had either in the office of the Deputy Commissioner concerned or in the office of the Secretary to the Agricultural Committee, "Ringwood," Avenue road, Bangalore.

8. The Agricultural Committee have been assured that if they work up and submit a practical scheme it will receive the sympathetic consideration of Government.

9. For framing a practical scheme for submission to Government the Committee are anxious to know whether there is a sufficiently large number of *bona fide* applicants either within or outside the State, desirous of taking up such large blocks of land contiguously and prepared to invest the necessary outlay and what concessions they require.

10. Persons wishing to take up such blocks of land are requested to put themselves in communication with the undersigned.

By Order,
K. SUBBA RAU,
Secretary, Agricultural Committee.

BANGALORE,
19*th November* 1912.

* If it shall appear that the bringing of any survey number under cultivation will be attended with large expense, or if for other special reasons it shall seem desirable, it shall be competent to the Deputy Commissioner, with the previous sanction of the Government, to give the number revenue free or at a reduced assessment for a certain term, or revenue free for a certain term and at a reduced assessment for a further term and to annex such special conditions to the occupancy as the outlay or other reasons aforesaid may seem to him to warrant : provided always that, on the expiry of the term or terms so agreed upon the land shall be liable to full assessment under the rules then in force for lands to which a survey settlement has been extended.

THE MYSORE ECONOMIC CONFERENCE.

AGRICULTURAL COMMITTEE.

NOTIFICATION.

CREATION OF LARGE SELF-CONTAINED FARMS.

At the Dasara Session of the Conference of 1911 a proposition was moved advocating the grant of certain blocks of land, such as *bechirak* villages, assessed waste lands not in use by the Amrut Mahal Department, *vanams* or cultivable forest lands containing *tari*, *khushki*, *bagayat* and *gomal*, as self-contained farms to agriculturists to the extent of 50 farms of 150 acres or upwards each in each district on certain conditions and concessions.

2. The main points urged were (1) that these farms are intended to be worked on improved methods; (2) that they are intended for educated men who can command capital and who wish to adopt agriculture as a profession; and (3) that each such farm should be kept or worked as a whole, its owner or his heirs or successors not being allowed to break it up, but being allowed to divide the profits among themselves.

3. The Conference while accepting the principle of the proposition, *viz.*, the encouragement of large farms, referred the subject back to the Agricultural Committee for submission of a working scheme.

4. Subsequently, a Sub-Committee consisting of Rajasabha Bhushana Mr. K. P. Puttanna Chetty, Dewan Bahadur, retired Councillor, Rajakarya Prasaktha Mr. D. Shama Rao, R.B., Superintendent of Revenue Survey in Mysore, Mr. D. Venkataramaiya, B.A., Advocate and member of the Economic Conference and Mr. C. Srinivasa Rao, Coffee Planter and member of the Agricultural Committee, Chikmagalur, was formed for consideration of the subject, and the following are the recommendations of the Sub-Committee:—

(i) In the opinion of the Sub-Committee it is desirable to advocate the formation of holdings consisting of one or more survey numbers in a contiguous block ranging from 50 to 150 acres and more, out of (*a*) assessed waste lands or unassessed lands not allotted for any communal purpose, (*b*) *bechirak* villages, (*c*) lands set apart for *gomal*, where available, without prejudice to the interests of the village cattle, (*d*) shendi *vanams*, (*e*) unused Amrut Mahal kavals, etc.

(ii) The Sub-Committee is further of opinion that the aid of Legislature should be sought for to make these holdings impartible but not inalienable.

(iii) That such holdings should be granted under the *Shraya Rules* under Rule 44* of the Land Revenue Rules only to persons who can afford and will undertake to introduce and utilise improved agricultural implements, methods, seeds and crops, so as to practically demonstrate to their neighbours the advantages of such implements, methods, etc.

5. The Agricultural Committee called for statements of assessed waste lands available for cultivation in all the districts in convenient and large blocks with particulars regarding water-supply, nature of soil and the kind of crops for which the land is suited.

6. The statements with the above particulars have been received from the districts of Bangalore, Kolar, Mysore and Chitaldrug, according to which there are about 116 such blocks covering an area of 9,780 acres in the Bangalore District, 338 blocks comprising 25,000 acres in the Kolar District, 222 comprising 16,700 acres in the Mysore District and 944 comprising 110,331 acres in the Chitaldrug District. Most of these are fit only for dry cultivation; in a large number of them wells have to be dug and labour has to be got from outside.

7. Further particulars regarding these blocks may be had either in the office of the Deputy Commissioner concerned or in the office of the Secretary to the Agricultural Committee, "Ringwood," Avenue road, Bangalore.

8. The Agricultural Committee have been assured that if they work up and submit a practical scheme it will receive the sympathetic consideration of Government.

9. For framing a practical scheme for submission to Government the Committee are anxious to know whether there is a sufficiently large number of *bona fide* applicants either within or outside the State, desirous of taking up such large blocks of land contiguously and prepared to invest the necessary outlay and what concessions they require.

10. Persons wishing to take up such blocks of land are requested to put themselves in communication with the undersigned.

By Order,
K. SUBBA RAU,
Secretary, Agricultural Committee.

BANGALORE,
19*th November* 1912.

* If it shall appear that the bringing of any survey number under cultivation will be attended with large expense, or if for other special reasons it shall seem desirable, it shall be competent to the Deputy Commissioner, with the previous sanction of the Government, to give the number revenue free or at a reduced assessment for a certain term, or revenue free for a certain term and at a reduced assessment for a further term and to annex such special conditions to the occupancy as the outlay or other reasons aforesaid may seem to him to warrant: provided always that, on the expiry of the term or terms so agreed upon the land shall be liable to full assessment under the rules then in force for lands to which a survey settlement has been extended.

MISCELLANEOUS.

OFFICE OF THE REGISTRAR OF CO-OPERATIVE SOCIETIES IN MYSORE.

Notification No. 629—*C. S.* 24, *dated 30th November* 1912.

The Registrar desires to point out that the submission of manuscript copies of the bye-laws proposed to be adopted by new Co-operative Societies often causes inconvenience and waste of time in the disposal of applications for their registration. In spite of the great care with which the bye-laws are generally prepared by the Organizers of new Societies, it is found that they are defective in respect of arrangement of language and of precision of ideas. Sometimes they do not contain some of the most necessary provisions which should be embodied in the bye-laws, while they often contain matter which may be safely left out.

2. For these reasons the Registrar desires to state that printed copies of model bye-laws, applicable to different kinds of Co-operative Societies, are available in this office, and will be sent on application free of cost to any person who is taking steps to form a co-operative society. When a meeting is held for the purpose of organizing a society, these bye-laws may be read out and explained to those assembled and the blanks left therein may be filled up with due regard to local circumstances.

3. It is requested that these printed bye-laws may be invariably used in connection with applications for registration of Societies.

M. A. NARAYANA IYENGAR,
Officiating Registrar.

OFFICE OF THE COMPILER, *MYSORE GAZETTE.*

NOTICE.

1. The *Mysore Gazette* is published at Bangalore every Thursday. Matter for publication in the Gazette is often sent late to the Press. This involves considerable inconvenience to the Press and expense to Government. All matter intended for publication in Parts II, III and IV should therefore reach this office not later than Tuesday evening, and that for Part I not later than the forenoon of Wednesday, for the following Thursday's issue of the Gazette.

2. Spare copies of notifications, etc., are often asked for long after their publication, when the matter has been broken up, necessitating its resetting and thereby causing inconvenience to the Press and waste of money. When spare copies are wanted, a note to that effect, stating the number of copies, should be made at foot of such manuscript.

3. If no instructions accompany any matter, it will be published only once.

4. Applications for the supply of the Gazette on *Public Service* should be made to the Secretary to the Government of Mysore, General and Revenue Departments.

5. Under Government Proceedings No. G. 622-32—G. M. 74-10-36, dated 27th July 1911, and Government Proceedings No. G. 4914-23—G. M. 46-11-36, dated 18th March 1912, the English or the Kanarese portion of the *Mysore Gazette* will be supplied to Shanbhogs, Patels, Nad Patels and Shekdars within the Province at *half* rates on production of a certificate from the Amildar of the taluk to the effect that such applicant is *bonâ fidè* on duty at the time.

6. Under Government Proceedings No. 2633-41—Mis. 558, dated 21st August 1900, the English or the Kanarese portion of the *Mysore Gazette* will be supplied at *half* rates to the members of the Mysore Representative Assembly during their tenure of office as such members.

7. All subscriptions and advertisement charges are payable *in advance.* When postage labels are sent in payment of subscription, etc., one anna extra per rupee should be added.

8. As Government Treasuries in Mysore are authorized to receive and credit Gazette subscriptions as well as publication charges remitted by Courts or private parties, all such moneys should be sent to Treasuries and only Treasury receipts forwarded to this office. No money orders or cash will be received by the undersigned except from parties outside the Province.

9. Much inconvenience is caused to this office by subscribers omitting to give their full and correct addresses and writing illegibly on the money order coupons.

10. Communications on post cards or on paper less than half a sheet of foolscap, will not receive attention; and no communication should be sent on Government Service by private parties.

11. An efficient system of check and counter check is maintained over the despatch of Gazette copies forwarded through post. Duplicates cannot be supplied in any case of non-delivery.

1. Read and confirmed the proceedings of the last meeting held on Thursday the 19th September 1912.

2. Mr. E. A. S. Bell, Engineer-in-Chief, State Railway Construction Department, having been kind enough to be present at this meeting to discuss certain matters connected with the construction of the Bowringpet-Kolar District Board Railway, recently sanctioned by the Government of India, the following resolutions were passed by the Board :—

(i) that it is desirable to have only two classes of stock on this railway to be designated upper class and lower class or first and third class as on many English Railways;

(ii) that it will be of advantage to utilize second hand 41¼ lbs. rails instead of new 30 or 35 lbs. rails, as the mileage rate of the heavier second hand rails will be considerably less than the mileage rate for new rails;

(iii) that all technical matters in connection with the railway construction be left in the hands of the Engineer-in-Chief;

(iv) that the plan of the station yard as drawn up by the Madras and Southern Mahratta Railway Company be approved of;

(v) that the Madras and Southern Mahratta Railway Company be approached with a view that they may take over the working of the line if suitable terms can be arranged, as the Board are unanimously of an opinion, that to try and work the line themselves or by Government agency would be found to be very expensive, and not in the interest of the travelling public; and

(vi) that Government be addressed to allow a three pie railway cess to be levied in the District on Land Revenue and Mohatarfa so as to make provision for the formation of a sinking fund to pay off the loan capital and payment of interest on the Debenture Bonds.

3. Read and recorded General and Revenue Secretary's Memo No. 3116—L. B. 355-10-10, dated 15th October 1912, prescribing the rates for the levy of tolls on public roads and bridges in Mysore.

4. Read and recorded Government Proceedings No. 3168-79—L. B. 38-12-5, dated 19th October 1912, sanctioning the increase of the annual grant from Rs. 500 to Rs. 1,000 to the Pasteur Institute at Coonoor.

5. Read letter No. 354, dated 15th October 1912, from the Executive Engineer, Kolar Division, forwarding for countersignature, estimates for the additions and alterations required for the Female Dispensary at Chikballapur, and enquiring whether the District and Municipal Board's contribution towards the cost of the work is forthcoming this year.

Resolved that the District Board's contribution for the work may be met out of Rs. 700, provided for "other items" under IX miscellaneous in the current year's budget.

6. Read letter No. 310, dated 11th September 1912, from the same officer, forwarding a project for Rs. 5,405, for constructing an in-patient ward at Bagepalli, and requesting that a sum of Rs. 1,500, sanctioned for constructing a dispensary at Chelur in the last year's Budget may be utilized for this work, as the Senior Surgeon is not in favor of a Dispensary at Chelur.

Resolved that the proposal be approved of, and Government be moved to sanction this amount out of last year's closing balance.

7. Read memo No. 378, dated 8th September 1912, from the Sub-Division Officer, Malur, regarding the acquisition of more land for the construction of a musafirkhana at Chintamani.

Resolved that the estimates be sanctioned and that the Taluk Board be asked to point out the source from which the cost thereof may be met.

9. Read report No. 69, dated 15th September 1912, from the Amildar of Chintamani, requesting that an imprest amount be placed at the disposal of the Taluk Board and the three Unions of the taluk.

Resolved that an imprest of Rs. 20 be sanctioned to all the Taluk Boards and that no imprests are necessary in the case of the Unions.

Resolved that the site chosen for the purpose be approved and estimate be countersigned and returned to the Executive Engineer, Kolar Division.

For *President, Sanitary Board.*

THE MYSORE ECONOMIC CONFERENCE.

AGRICULTURAL COMMITTEE.

NOTIFICATION.

CREATION OF LARGE SELF-CONTAINED FARMS.

At the Dasara Session of the Conference of 1911 a proposition was moved advocating the grant of certain blocks of land, such as *bechirak* villages, assessed waste lands not in use by the Amrut Mahal Department, *vanams* or cultivable forest lands containing *tari*, *khushki*, *bagayat* and *gomal*, as self-contained farms to agriculturists to the extent of 50 farms of 150 acres or upwards each in each district on certain conditions and concessions.

2. The main points urged were (1) that these farms are intended to be worked on improved methods; (2) that they are intended for educated men who can command capital and who wish to adopt agriculture as a profession; and (3) that each such farm should be kept or worked as a whole, its owner or his heirs or successors not being allowed to break it up, but being allowed to divide the profits among themselves.

3. The Conference while accepting the principle of the proposition, *viz.*, the encouragement of large farms, referred the subject back to the Agricultural Committee for submission of a working scheme.

4. Subsequently, a Sub-Committee consisting of Rajasabha Bhushana Mr. K. P. Puttanna Chetty, Dewan Bahadur, retired Councillor, Rajakarya Prasaktha Mr. D. Shama Rao, R.B., Superintendent of Revenue Survey in Mysore, Mr. D. Venkataramaiya, B.A., Advocate and member of the Economic Conference and Mr. C. Srinivasa Rao, Coffee Planter and member of the Agricultural Committee, Chikmagalur, was formed for consideration of the subject, and the following are the recommendations of the Sub-Committee:—

(i) In the opinion of the Sub-Committee it is desirable to advocate the formation of holdings consisting of one or more survey numbers in a contiguous block ranging from 50 to 150 acres and more, out of (*a*) assessed waste lands or unassessed lands not allotted for any communal purpose, (*b*) *bechirak* villages, (*c*) lands set apart for *gomal*, where available, without prejudice to the interests of the village cattle, (*d*) shendi *vanams*, (*e*) unused Amrut Mahal kavals, etc.

(ii) The Sub-Committee is further of opinion that the aid of Legislature should be sought for to make these holdings impartible but not inalienable.

(iii) That such holdings should be granted under the *Shraya Rules* under Rule 44* of the Land Revenue Rules only to persons who can afford and will undertake to introduce and utilise improved agricultural implements, methods, seeds and crops, so as to practically demonstrate to their neighbours the advantages of such implements, methods, etc.

5. The Agricultural Committee called for statements of assessed waste lands available for cultivation in all the districts in convenient and large blocks with particulars regarding water-supply, nature of soil and the kind of crops for which the land is suited.

6. The statements with the above particulars have been received from the districts of Bangalore, Kolar, Mysore and Chitaldrug, according to which there are about 116 such blocks covering an area of 9,780 acres in the Bangalore District, 338 blocks comprising 25,000 acres in the Kolar District, 222 comprising 16,700 acres in the Mysore District and 944 comprising 110,331 acres in the Chitaldrug District. Most of these are fit only for dry cultivation; in a large number of them wells have to be dug and labour has to be got from outside.

7. Further particulars regarding these blocks may be had either in the office of the Deputy Commissioner concerned or in the office of the Secretary to the Agricultural Committee, "Ringwood," Avenue road, Bangalore.

8. The Agricultural Committee have been assured that if they work up and submit a practical scheme it will receive the sympathetic consideration of Government.

9 For framing a practical scheme for submission to Government the Committee are anxious to know whether there is a sufficiently large number of *bona fide* applicants either within or outside the State, desirous of taking up such large blocks of land contiguously and prepared to invest the necessary outlay and what concessions they require.

10. Persons wishing to take up such blocks of land are requested to put themselves in communication with the undersigned.

By Order,
K. SUBBA RAU,
Secretary, Agricultural Committee.

BANGALORE,
19*th November* 1912.

* If it shall appear that the bringing of any survey number under cultivation will be attended with large expense, or if for other special reasons it shall seem desirable, it shall be competent to the Deputy Commissioner, with the previous sanction of the Government, to give the number revenue free or at a reduced assessment for a certain term, or revenue free for a certain term and at a reduced assessment for a further term and to annex such special conditions to the occupancy as the outlay or other reasons aforesaid may seem to him to warrant: provided always that, on the expiry of the term or terms so agreed upon the land shall be liable to full assessment under the rules then in force for lands to which a survey settlement has been extended.

OFFICE OF THE REGISTRAR OF CO-OPERATIVE SOCIETIES IN MYSORE.

Notification No. 629—*C. S.* 24, *dated* 30*th November* 1912.

The Registrar desires to point out that the submission of manuscript copies of the bye-laws proposed to be adopted by new Co-operative Societies often causes inconvenience and waste of time in the disposal of applications for their registration. In spite of the great care with which the bye-laws are generally prepared by the Organizers of new Societies, it is found that they are defective in respect of arrangement of language and of precision of ideas. Sometimes they do not contain some of the most necessary provisions which should be embodied in the bye-laws, while they often contain matter which may be safely left out.

2. For these reasons the Registrar desires to state that printed copies of model bye-laws, applicable to different kinds of Co-operative Societies, are available in this office, and will be sent on application free of cost to any person who is taking steps to form a co-operative society. When a meeting is held for the purpose of organizing a society, these bye-laws may be read out and explained to those assembled and the blanks left therein may be filled up with due regard to local circumstances.

3. It is requested that these printed bye-laws may be invariably used in connection with applications for registration of Societies.

M. A. NARAYANA IYENGAR,
Officiating Registrar.
